Email: kumarhimanhsu995573@gmail.com

GitHub: <https://github.com/himanshukumar-codes>

Mobile: +91 - 9334094269

SKILLS

Languages:	Python, C++, Java, JavaScript
Databases:	MySQL, PostgreSQL, MongoDB
Frameworks/Tools:	React.js, Node.js, Express.js, HTML, CSS, REST APIs, Git, GitHub, Canva, Figma
Soft Skills:	Leadership, Team Collaboration, Problem-Solving, Adaptability

PROJECTS

Music Playlist Manager | [Github](#) Jun 2026 - Jul 2026

- Developed a dynamic Playlist Management System in C++ for efficient song organization and navigation.
- Implemented optimized song traversal, insertion, deletion, search, and playlist navigation using linked-list based data structures.
- Applied OOP principles to design modular and maintainable playlist operations with an interactive menu-driven interface.
- Tech used** - C++, Data Structures, OOP

Smart Farming Assistance | [Github](#) Jan 2026 - May 2026

- Developed a smart farming web application providing crop recommendations using agricultural parameters.
- Built and integrated a Machine Learning prediction pipeline in Python to process agricultural inputs and identify the most suitable crops based on learned patterns.
- Developed RESTful APIs using Node.js and Express.js to connect the ML prediction layer with the React.js frontend and handle real-time data flow between application components.
- Implemented user authentication and MongoDB-based data management, creating a complete full-stack solution for secure and scalable agricultural decision support.
- Tech used** - React.js, Node.js, Express.js, MongoDB, Python, Machine Learning, REST APIs

Smart Parking Management | [Github](#) Jan 2025 - Feb 2025

- Developed a smart Parking Management System to automate parking slot allocation, vehicle entry/exit tracking, and parking records.
- Implemented real-time slot management to efficiently track available and occupied parking spaces.
- Built a responsive web interface with REST APIs for seamless frontend-backend communication.
- Implemented user authentication and centralized management of vehicle and parking data.
- Tech used** - React.js, Node.js, Express.js, MongoDB, REST APIs, JavaScript

TRAINING

Basics of Data Structures and Algorithms (DSA) | LPU Jun 2026 - Jul 2026

- Completed training focused on fundamental data structures and algorithms and their practical applications.
- Gained hands-on understanding of arrays, linked lists, stacks, queues, trees, and searching and sorting algorithms.
- Strengthened problem-solving and algorithmic thinking through programming-based exercises.
- Applied DSA concepts to solve programming and problem-solving exercises.
- Completed the training with an overall Grade A, demonstrating strong understanding of DSA concepts.

CERTIFICATES

- | | |
|---|----------|
| Database Management System Part - 1 Infosys Springboard | Aug 2026 |
| Programming in JAVA jamneo (an NIIT venture) | May 2026 |
| Programming Using C++ Infosys Springboard | Aug 2025 |
| Basic Python (Short-Duration MOOC, Proctored Exam) Skillera | Jan 2025 |

ACHIEVEMENTS

- | | |
|---|----------|
| Achieved an overall Grade A in the Basics of DSA training conducted by LPU. | Aug 2026 |
| Achieved 1st rank in the CodeChef Rookie League leaderboard with 330 XP. | Feb 2026 |

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; CGPA: 7.08	Jul 2024 - Present

Utkramit Uchch Madhyamik Vidyalay Chandawara	Nawada, Bihar
Intermediate ; Percentage: 60.6	Apr 2022 – Mar 2023

Utkramit Uchch Madhyamik Vidyalay Chandawara	Nawada, Bihar
Matriculation ; Percentage: 73.8	Apr 2020 – Mar 2021
